**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 39-41, 45-47, 51, and 52 are rejected under 35 U.S.C. 102(b) as being anticipated by Leupold (US5396209) and Leupold (US4837542).

Leupold (US5396209) in fig. 2b disclosed a compound magnet assembly (upper or lower) having a front face and comprising a plurality of segments, the segments each magnetized to provide the maximum magnetic field in a selected direction at a selected operating point spaced from the front face of the compound magnet assembly [see fig. 4 in Leupold(US4837542)]; wherein each segment is magnetized in the direction of magnetization that, at the center of mass of the segment, provides the maximum contribution to the magnetic field in the selected direction at the selected point (see abs, lines 8-10); the back face being substantially contoured to follow a surface of constant contribution to magnetic field in the selected direction at the operating point.

3. Claim 39 is rejected under 35 U.S.C. 102(b) as being anticipated by Cooke (US4325246).

Cooke disclosed a compound magnet assembly having a (u-shaped) front face and comprising a plurality of segments (32,34,62,64), the segments each magnetized to

provide the maximum magnetic field in a selected direction at a selected operating point 66 spaced from the front face of the compound magnet assembly (col. 2, lines 62-68, and col. 3, lines 1-2).

***Response to Arguments***

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
